

## Step 7 Seeing how it worked

**You should meet with your care manager or social worker about once a year to see how things are going. But you can ask for a meeting any time.**

Your care manager or social worker needs to know how your plan is working and how you are spending the money.

Also, you can help other people organise their support: tell them what worked and what didn't work for you by becoming a volunteer Mentor at SYCIL. Call Jane Kidd on 01302 892949 for more information.
